intro-duction

Welcome to my portfolio — a curated peek into the projects, pixels, and playful chaos that shapes my tech-girl world. Settle in, click & scroll slow, and enjoy the blend of clean design, clever code, and unapologetic personality.

hello, i'm !

Summer Davis

September
20266

I'm a remote web developer, designer, and full-time creative who loves building bold, modern digital experiences that feel intentional and beautifully crafted. I blend clean code with expressive design, turning ideas into interfaces that carry both clarity and personality.

Between working on SASSy.code & LadyBugged Web Dev, leveling up my Computing/IT degree, and managing life with three dogs who think they're part of my dev team, I've learned how to balance creativity, structure, and a little bit of crazy life . My work reflects who I am — thoughtful, energetic, and a little sassy!

my skills

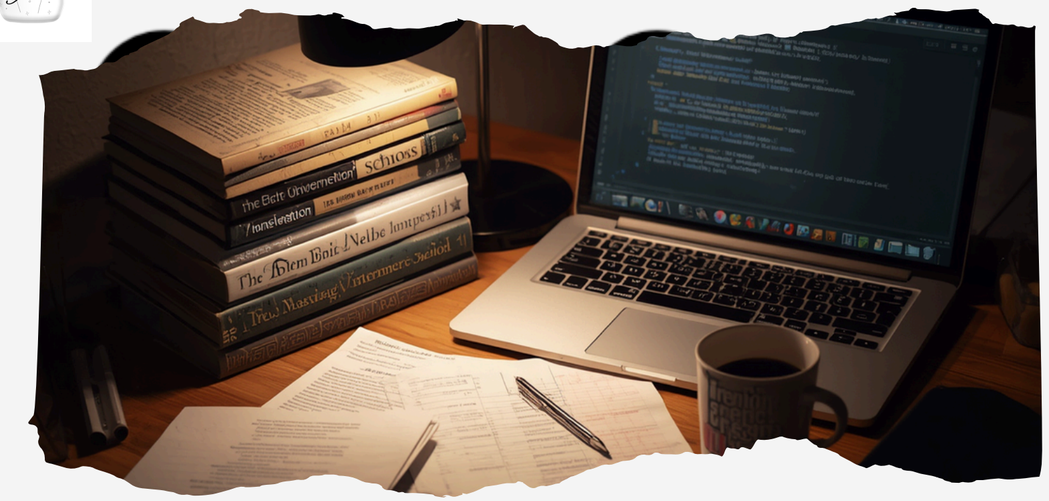

Responsive Web Design | Front-end Development | UI/UX Best Practices | SQL Database Design | Data Analysis | Data Visualization & Reporting | System Administration | Network Fundamentals |Technical Troubleshooting

Professional Strengths

- Analytical Problem-Solving: Breaking down complex technical requirements into practical, clean solutions.
- Technical Communication: Translating complex data and system concepts into clear insights for non-technical stakeholders.
- Collaboration & Adaptability: Working effectively in cross-functional teams and quickly adapting to new technologies and frameworks.

American Public University: Intro to Web Developmemt

Unleashing Truth: Pit Bull Advocacy Website – Built a fully validated, multi-page website using semantic HTML5, CSS, & JavaScript. Integrated custom navigation, embedded multimedia (videos & images), & hyperlinked external resources while maintaining 100% WC3 compliant, error-free markup verified through code validation tools.

Personal Project: Paw’tique Boutique

Paw’tique Boutique is my creative, pet-centered brand where style meets functionality for the dogs who run my world. I design modern, personality-packed accessories and digital products inspired by my own trio of pups — blending boutique aesthetics with everyday practicality. From playful patterns to polished branding, Paw’tique Boutique celebrates individuality, comfort, and the joy of pet ownership. It’s a space built with heart, creativity, and a commitment to making pets (and their humans) feel seen, loved, and a little extra fabulous.

Unleashing Truth

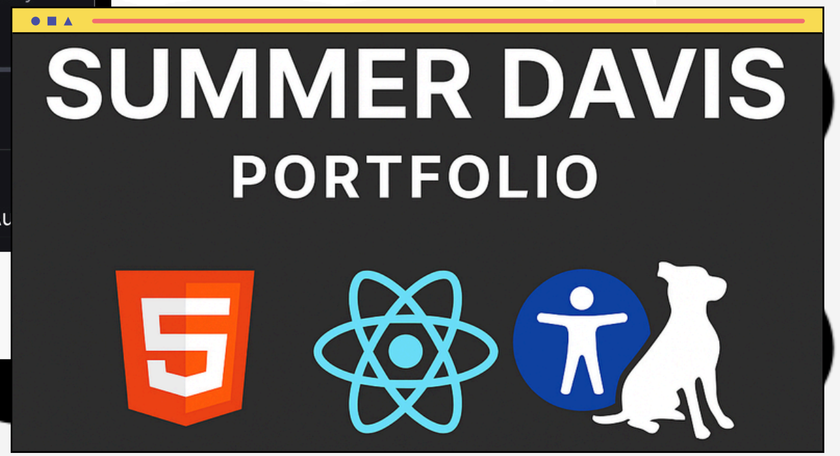

2025

Unleashing Truth is an educational advocacy website I originally built to challenge the stereotypes and misinformation surrounding pit bulls. Designed with clarity, empathy, and purpose, the project blends factual research with approachable UI to create a safe, informative space for users to learn the truth about a widely misunderstood breed. I developed the site using semantic HTML5, clean CSS3, and introductory JavaScript to support simple interactive elements, ensuring the content remained accessible and easy to navigate. Every page was intentionally structured, validated through W3C standards, and supported with images, links, and organized sections to reinforce readability. This project represents a foundational milestone in my development journey — where my passion for advocacy met my growing technical skillset, resulting in a meaningful digital resource built with care, accuracy, and a commitment to changing perceptions.

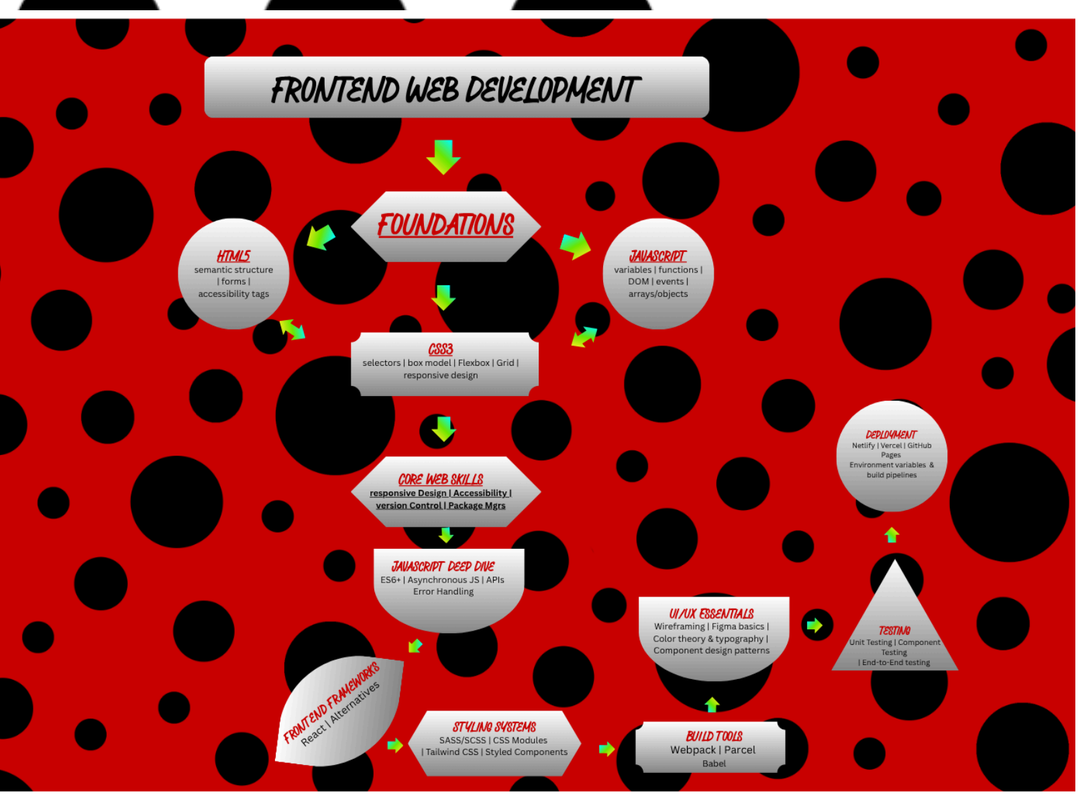

GitHub Projects

September 2026

My GitHub profile showcases the hands-on work behind my development journey — a collection of clean, intentional projects that reflect my growth in front-end development, UI/UX design, and practical problem-solving. Each repository highlights a different skill set, from structured semantic HTML and responsive CSS layouts to beginner JavaScript functionality and real-world debugging. You'll find projects like Unleashing Truth, portfolio builds, component experiments, and design-driven layouts that demonstrate my ability to turn ideas into functional, organized code. My GitHub is where I document progress, refine techniques, and build the foundation of the polished digital experiences I create today.

roadmap.sh Projects

My Roadmap.sh projects highlight my hands-on growth as a front-end developer through practical, requirement-driven builds. Each project is created from scratch using semantic HTML, responsive CSS, and thoughtful UI/UX decisions that prioritize clarity, accessibility, and modern design patterns. These challenges demonstrate my ability to interpret specifications, structure clean code, and deliver functional, user-friendly interfaces — reflecting both my technical skillset and my commitment to continuous learning. Check out my roadmap.sh profile and project code by clicking the r. below.

SUMMER DAVIS

PORTFOLIO

Summer B. Davis

Newport, TN | summerd1203@gmail.com | +1(423)487-7159 | https://www.linkedin.com/in/summer-davis-dev

Frontend Web Developer and Freelancer/Founder skilled in HTML5, CSS, JavaScript, and responsive design. Combines technical expertise with branding, UI/UX, and accessibility to build engaging, user-focused websites. Passionate about advocacy, community education, and delivering impactful digital experiences.

EDUCATION

Austin Peay State University (Pursuing) | June 2026 - Present

B.S. Computer Information Technology | Web & Data | GPA: 4.0

American Public University | April '23 - March '26 (Tranferred)

B.S. Computer Technology | Web Development GPA: 3.4

PROJECTS & EXPERIENCE

Built responsive layouts using Flexbox and Grid with HTML5, CSS3, and JavaScript.
Applied accessibility standards and semantic markup to enhance user experience and cross-browser compatibility. Leveraged ES6+ features and asynchronous programming with the Fetch API.

Web Developer Remote **April '26 - March 2026**

Developed responsive, accessible websites using HTML5, CSS3, and JavaScript.

Founder and Web Designer

Paw'tique Boutique / Advocacy Initiatives **Jan '23 – Present**

Founded and designed responsive, accessible websites for advocacy and small business clients using HTML, CSS, and JavaScript. Applied branding, UI/UX design principles, and SEO strategies to deliver visually engaging, user-focused digital experiences.

Customer Service Representative | Cashier/Retail Associate **January '04 - July 2012**

Delivered exceptional customer support across 8+ years, resolving issues efficiently and building strong client relationships. Applied communication, problem-solving, and conflict resolution skills to consistently enhance customer satisfaction.

Homemaker | Self Employed **December '06 - Present**

Managed household operations including budgeting, scheduling, meal planning, and home upkeep. Provided full-time childcare and support for two children from infancy through young adulthood, coordinating school, healthcare, transportation, and daily routines. Planned family events and maintained a stable, organized home through strong communication and problem-solving.

SKILLS

Workplace Skills
